 Re: New Product Introduction – Exclusive Collection – **Titmus EX281S**

The Exclusive Collection has been the arena for those styles that are more sophisticated, elegant, polished, fashion driven and/or simply eye appealing. A true unisex style at this level is always a challenge but we think the new **Titmus EX281S** completely meets that challenge. We invite you to take a close look at this attractive and safety-compliant frame especially suitable for the office and all day wear.

The **Titmus EX281S** offers some great features and benefits:

- A contemporary modified rectangular and hand made acetate front offered in three classic colors designed to satisfy most wearers' requirements.
- A stainless steel "split" temple design provides a touch of sophistication and elegance not usually seen in the safety frame environment.
- Color coordinated and handmade temple tips complete the polished appearance of this elegant style.
- The saddle bridge design offers a clean uncluttered look while providing a comfortable fit.
- Like all Uvex Rx products the **Titmus EX281S** meets the ANSI Z87.1 – 010 Standard.
